Overview

ecbi

- In Sharm el-Sheikh Parties established **a work programme on just transition for discussion of pathways to achieving the goals of the Paris Agreement outlined in Article 2, paragraph 1, in the context of Article 2, paragraph 2** (para 52 I/CMA.4)
- In the same decision (paras 50 and 51), Parties affirmed that sustainable and just solutions to the climate crisis must be **founded on meaningful and effective social dialogue and participation of all stakeholders** and noted that the **global transition to low emissions provides opportunities and challenges for sustainable economic development and poverty eradication.**
- Also, this decision highlighted that **a just and equitable transition encompasses pathways that include energy, socioeconomic, workforce and other dimensions**, all of which must be **based on nationally defined development priorities and include social protection** to mitigate potential impacts associated with the transition.
- As **part of this work programme** (para 53), the CMA will also **convene an annual high-level ministerial round table** on just transition, beginning at CMA5 in Dubai.
